Subject: SETTLEMENT OF MICROSOFT LAWSUIT

GENTLEMEN

I think getting MicroSoft to donate \$1 Billion in equipment and/or services to the US Public School System is great for America. I wish more settlements of this nature were made that would benefit the general US Public. I would add that some of this settlement value should be given to the private schools also. Maybe the value could be appropriated in porportion to the students are in the overall school population.

Thank you & "go get the money from MicroSoft for the People!"
